1 Preface

Thank you for choosing this equipment. The use of this product is more complicated. Please read this manual carefully to understand the operating method of the microscope before use.

2 Important notes

1. Please fully charge the battery before using for the first time. This is not required to charge it through the USB port. Please do not charge it directly through the PC.

2. You are recommended to observe cells or microorganisms, the material to be observed will be microorganism, the material to be observed will be microorganism, the material to be observed will be microorganism.

3. The length of the objective lens is long. You need to move the objective lens to the right along the focal length.

4. This equipment is recommended for the magnification of 400 times. It is recommended to use the digital camera and video camera to observe the image.

5. When the battery is low, the memory mode or the PC port can be used. This situation is not a product.

6. Do not touch the lens and optic parts with your hands, otherwise the image will blur and the image quality will be affected.

7. Do not dismantle the product or consume structure yourself, as it is an avoidable use of the equipment.
