Anesok® 2MP Wifi Portable Endoscope Feature and Application

The image displays four distinct applications of the endoscope, each with a corresponding blue caption box below it:

- For machine inspection:** A close-up view of a person's hands using the endoscope to inspect a white ceiling-mounted air conditioning unit.
- For pipes wall cavities:** A view through the endoscope showing a complex network of industrial pipes and valves, likely for inspecting hidden areas within walls or pipes.
- For motor vehicles:** A person wearing safety glasses is using the endoscope to inspect the underside of a vehicle.
- For poor condition:** A view through the endoscope showing a severely damaged and collapsed structure, possibly a building or bridge, illustrating the tool's use in assessing structural integrity.
