

Shallow Casserole

China ADC® Shallow Casserole is perfect for cooking casseroles, stews and soups with a large base. It's suitable for braising meats and vegetables. Shallow Casserole made in China is ideal for cooking for two or more people.

Product Description

The shape of a Shallow Casserole made in China is somewhere between a Aluminum Casserole and a Nonstick Fry Pan. It has a sloping side and is shallower than a Aluminum Casserole, but deeper than a Nonstick Fry Pan, with enough depth to hold sauces and stews. Great for low to medium calorie use with minimal oil or butter for a healthy diet.

Product Specification

We choose this China Shallow Casserole for when a Nonstick Fry Pan can't do it - think creamy risotto, meatballs in tomato sauce, or fish curry. Shallow Casserole focuses on surface area, not depth, and it's also a great choice for pilaf, gratin, and grilled chicken.

Item NO.	Size: (DIA.) x (H)	Packing Detail

XGP-32SP/S04	∅ 32x8.0cm	4pcs/ctn/36x36x43cm

Shallow Casserole Care Notes

Care: Never let Shallow Casserole dry out or leave an empty pan unattended on a hot burner. Both of these conditions can be detrimental to the cooking performance of the pan.

When moving or removing cookware from the stove or oven, be sure to use a heating pad, oven mitts, or pot racks.
