

## Silicone Clips

ADC® is a professional Silicone Clips manufacturer and supplier in China, Especially in the cookware and parts we have more than 30 years experience . If you want develop any high quality OEM/ODM projects in Silicone products. Please contact with us ,our service team will help you find the best solution .

## Product Description

ADC® Silicone Clips Made of high quality silicone, which can directly contact with food, with non-toxic, non odor, safe and harmless. High temperature resistance, heat-resistant up to 230 °C. These Silicone Clips are safer than typical cloth mitts and small potholders that slide off, causing burns. Aside from that, it is also dishwasher safe and very easy to clean.

### **Silicone Clips Considerations**

**Note:** Do not use the Silicone clips when coming in contact with open flames, do not put this clips on while it is in the oven, it should be taken off before put in. The silicone auxiliary handle holder is suitable for anything from copper pans to die cast frying pans, such as cast aluminum pans, frying pans, skillet pans, wok pans, milk pans, dutch ovens as well. These are alternative to traditional pot holders and oven gloves. Ideal for using at home, travel or camping.
