Our Caterpillar C13 249-0713 Fuel Injector 10r-3262 are made with premium OEM quality materials to ensure strength and durability. We design and manufacture these parts to withstand the extreme conditions found in today's heavy duty equipment. Do not hesitate to call us at +8613501533176 if you have any questions about this item. As always, your satisfaction is guaranteed!

249-0713 Fuel injectors deliver the right amount of fuel at the right time into an internal combustion engine. Cat® C13 Fuel Injectors are the best choice when you need to repair or rebuild any Cat diesel engine. Cat C13 Fuel Injectors are developed specifically for your Cat engine and today's low-sulfur, low-lubricity fuels. You'll get the best wear life, fuel economy and overall performance, regardless of the equipment it's powering or the conditions it has to endure. Featuring coated plungers for maximum wear resistance, each unit is rigorously tested, so you know you're getting genuine Cat reliability. That sets them apart from reverse engineered aftermarket brands, which can cause power and fuel efficiency losses of up to 5%.
