### 2. Specifications

No.	Item	Description
1	Product Name	Auto Parts Fuel Line Band Elbow Quick Joint
2	Model	6.30 SAE 1/4" ID3
3	Shape	90 Degree Bend Connection
4	Fitting Pipe	Nylon Hose ID 3mm

5	Application	Fuel Pipe Line System on Automobile, Motorbike, Ships
6	Raw Material	Arkema PA12 GF30 /PA66 GF30-35
7	Color	Black / Gray or Customized
8	Temperature	Continuous Operating - 30°C - - 120°C
9	Pressure	Working Pressure 5-7bar

### 3. Application

These series of the quick connectors are widely used on Fuel, fuel vapor, high temperature resistant fuel, pipe interface of steering system of automobiles, motorcycles and ships.

### 4. Auto Parts Fuel Line Band Elbow Quick Joint Details

Our automobile fuel pipeline quick connectors all used double O-type seal ring. One is Outer O-seal ring, used FVMQ (Fluorosilicone) materials, the other is inner O- seal ring, used FKM(Fluorrubber) materials. These O seal ring were imported from Huthchinson in France. More safety and better quality with only one o-seal ring connector from other suppliers.

Our high quality products with 2 different o seal rings  
Compare with the other suppliers only one o seal ring
