

## **Stainless Steel Coil Slitting Machine**

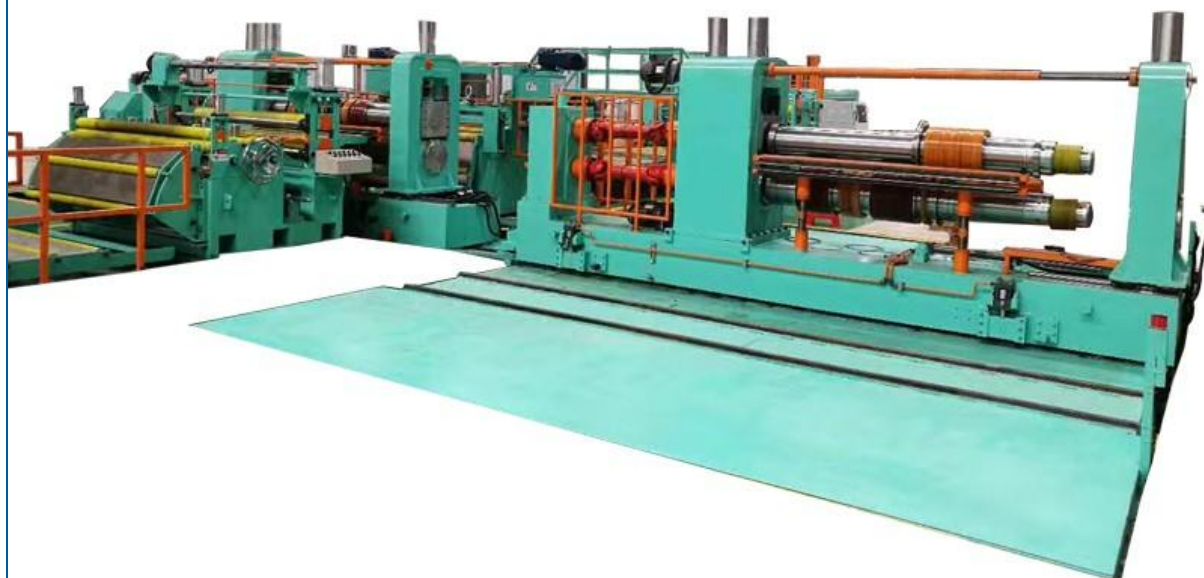

KINGREAL MACHINERY is stainless steel coil slitting machine professional manufacturer and supplier, which offer full solutions in coil processing production line, such as stainless steel slitting machine. We can provide the slitting machine for different materials. Since 1995, we have reached cooperation with customers all over the world.

### **Product Description**

**Stainless Steel Coil Slitting Machine Description**

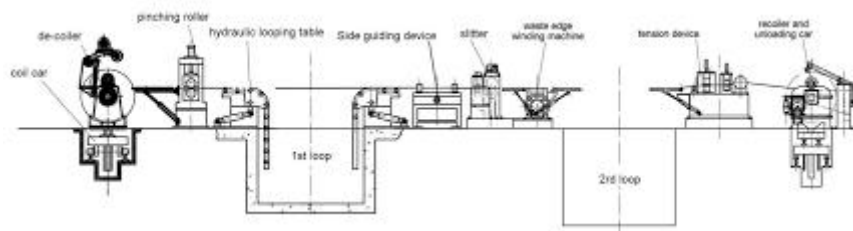

KINGREAL stainless steel coil slitting machine can divide the stainless steel material coil into strips of the same width according to the needs of customers, and then roll them up. KINGREAL manufacturer have the rich produce experience in coil slitting line, can ensure the precision and high-speed production efficiency of the slitting machine. The stainless steel coil slitting can accurately slit the stainless steel coil into different widths, the high-quality production parts and sharp cutting tools are critical to production results.

## Production Process Of Slitting Line

Hydraulic Coil Car -- Hydraulic Decoiler -- Pinch Leveler Shear -- Front loop&Bridge -- High Speed Slitting Machine-- Rear loop Pit & Bridge -- Sheet Transmission Belt-- Recoiler

## Main Part Details Of Stainless Steel Coil Slitting Machine

### Hydraulic Decoiler

- Single cantilever structure bearing capacity: 12 Tons.
- Maximum Support: 500mm.
- Decoiler Method: hydraulic tension.
- Electric unwinding power: 7.5KW frequency conversion.
- Hydraulic pump: 4Kw.
- For materials with a weight of up to 12 tons, KINGREAL has designed an uncoiling trolley, which can complete the work of rewinding.

### High Speed Slitter Part

- Slitting parts are the most important part of the whole slitting machine production line, the quality of which directly determines the quality of slitting.

- KINGREAL adopts Cr12Mov materials to produce the slitting blade, which thickness is 10mm.

### ▶ Stainless Slitting Line Specifications: ◀

Material	Stainless Steel Or Other
Thickness Range	0.3-2.5mm
Width Range	500-1800mm
O.D.	≤φ2000mm
MaximumSlitting Speed	220m/min
Maximum Slit	35pcs
Maximum Belt Speed	20m/min
Capacity	258KW

### ▶ Stainless Steel Recoiler Product Specifications ◀

KINGREAL UNIVERSAL IND.,LTD  
Phone:+86-13702855825  
E-mail: [kingreal2004@gmail.com](mailto:kingreal2004@gmail.com)

Max Coil Weight	15T
Min Slitted Width	21mm
Max slitted Strip	20
Accuracy	≤0.05mm
Burs	≤0.03mm

### Are you a manufacturer?

Yes, we are a manufacturer. We have a factory and our own technical team, feel free to visit us.

### What information do you have to provide for us to prepare a quote?

1. Thickness of the coil (min-max)?
2. Coil width (min-max)?
3. What is your steel material?
4. Coil weight (max)?

KINGREAL UNIVERSAL IND.,LTD  
 Phone:+86-13702855825  
 E-mail: kingreal2004@gmail.com

5. How many pieces of maximum thickness do you need to slit?
6. How many tons do you need per day or per month?

### How to visit your company?

Our factory is located in Foshan city, Guangdong Province. So there are two ways to our city.

One is by flight, direct to Foshan or Guangzhou Airport. Another is by train, direct to Foshan or Guangzhou station.

We will pick you up at the station or airport.

### Why should I choose you, and what makes you different from other Chinese suppliers?

We have specialized in this industry for over 20 years, especially in roll forming machines.

Our machine lines are exported directly to Russia, Vietnam, India, Indonesia and many other countries in Asia, Africa, Middle East and South America.

## After-Sale Service

### PACKING&SHIPPING

Carefully packaged and professionally shipped

Since the COVID-19 pandemic, travel has been greatly affected. In order to help our customers to solve machine installation problems, KINGREAL will provide both online and local installation services.

👉 Online installation guide

KINGREAL UNIVERSAL IND.,LTD  
Phone:+86-13702855825  
E-mail: [kingreal2004@gmail.com](mailto:kingreal2004@gmail.com)

- Photos and videos of machine will be sent - Online group will be initiated to discuss together
- Regular video conference be held to keep communication and contacting

#### Local installation

KINGREAL will arrange engineers to go abroad to install the machine at the customer's place to ensure the normal operation of the machine, and will provide all technical guidance. Exact costs to be negotiated.
