

Battery for Electric Tricycle

The appearance of electric tricycle is convenient for people's life. People can use it to deliver express delivery, pick up and drop off children, pull things, and even drive it when going camping. It is very convenient! His tricycle Battery for Electric Tricycle can also run 20~50km! The batteries produced by our company are produced in strict accordance with international standards, with a warranty period of one year and a service life of about three years!

Product Description

EVK's electric tricycle batteries can be used in electric tricycles, floor washers, etc. It is a kind of lead-acid battery. We make it maintenance-free, and it is very friendly to the environment. As long as it is not artificially damaged, it will not pollute the environment. The voltage of the battery is 6 volts, 8 volts and 12 volts. The amperage is 100Ah, 150Ah, 200Ah, and others. We can produce the products that customers need according to their requirements. I believe we are your wise choice!

Battery for Electric Tricycle Parameter (Specification)

Ann number	voltage
100	12V
150	8V
200	6V

The EVK Production of Battery for Electric Tricycle Feature And Application

The production equipment and technology of EVK Battery for Electric Tricycle are the most advanced in the world at present, which ensures the high quality of products. The raw materials used are all first-class brand-new materials. The end plate material is 99 pure copper, which ensures the output of large current. Our products are widely used in patrol cars, sightseeing bus, car washers and other equipment!
