

Battery for Floor Washing Vehicle

EVK company has been focusing on the field of Battery for Floor Washing Vehicle. The invention of the floor washer facilitates the work of the cleaning staff and improves the cleaning efficiency. More and more places use floor washing vehicles, including public environment, subway station, high-speed railway station and other places in parks!

Product Description

The EVK Production of Battery for Floor Washing Vehicle produced by is mainly used in the field of Floor Washing Vehicle. It is a kind of lead-acid battery, The voltage of the battery is 6 volts, 8 volts and 12 volts. The amperage is 100Ah, 150Ah, 200Ah, and there are other amperages. We can produce the products that customers need according to their requirements. I believe we are your wise choice!

Battery for Prowl Car Parameter (Specification)

Ann number	voltage
100	12V
150	8V
200	6V

The EVK Production of Battery for Floor Washing Vehicle Feature And Application

The production equipment and technology of EVK Battery for Floor Washing Vehicle are the most advanced in the world at present, which ensures the high quality of products. The raw materials used are all first-class brand-new materials. The end plate material is 99 pure copper, which ensures the output of large current. Our products are widely used in patrol cars, sightseeing bus, car washers and other equipment!
