

Battery for Golf Cart

EVK company has been focusing on the field of Battery for Golf Cart, At present, we have 2,000 customers in China, and our Battery for Golf Cart have been recognized by our customers. We have also exported a lot of batteries to America, Europe, Southeast Asia and other regions. Good quality can be appreciated by customers!

Product Description

The EVK Production of Battery for Golf Cart produced by is mainly used in the field of Prowl Car. It is a kind of lead-acid battery, The voltage of the battery is 6 volts, 8 volts and 12 volts. The amperage is 100Ah, 150Ah, 200Ah, and there are other amperages. We can produce the products that customers need according to their requirements. I believe we are your wise choice!

Battery for Golf Cart Parameter (Specification)

Ann number	voltage
100	12V
150	8V
200	6V

The EVK Production of Battery for Golf Cart Feature And Application

The production equipment and technology of EVK Battery for Golf Cart are the most advanced in the world at present, which ensures the high quality of products. The raw materials used are all first-class brand-new materials. The end plate material is 99 pure copper, which ensures the output of large current. Our products are widely used in patrol cars, sightseeing bus, car washers and other equipment!
