

### Battery for Prowl Car

EVK company has been focusing on the field of Battery for Prowl Car, Our main customer is the manufacturer of patrol cars. Patrol cars are used in various scenes, such as usual security patrols, important meetings, parks and so on! The appearance of patrol cars has greatly facilitated the work of security personnel!

### Product Description

The EVK Production of Battery for Prowl Car produced by is mainly used in the field of Prowl Car. It is a kind of lead-acid battery, The voltage of the battery is 6 volts, 8 volts and 12 volts. The amperage is 100Ah, 150Ah, 200Ah, and there are other amperages. We can produce the products that customers need according to their requirements. I believe we are your wise choice!

### Battery for Prowl Car Parameter (Specification)

Ann number	voltage
100	12V
150	8V
200	6V

### The EVK Production of Battery for Prowl Car Feature And Application

The production equipment and technology of EVK Battery for Prowl Car are the most advanced in the world at present, which ensures the high quality of products. The raw materials used are all first-class brand-new materials. The end plate material is 99 pure copper, which ensures the output of large current. Our products are widely used in patrol cars, sightseeing bus, car washers and other equipment!
