

Electric Forklift Battery Pack

EVK company has been focusing on the field of Electric Forklift Battery Pack, There are thousands of forklifts in Qian Qian in every corner of the world. With the improvement of people's requirements for working environment. Diesel forklifts will gradually be eliminated and replaced by electric forklifts. Electric forklift has become the first choice for everyone because of its low noise and low air pollution!

Product Description

The EVK Production of Electric Forklift Battery Pack produced by is mainly used in the field of Electric Forklift Battery Pack. The battery pack of electric forklift is relatively large, and it is made up of small 2-volt battery packs connected in series. Although its voltage is relatively low, its capacity is very high, with a capacity of 200~680AH! Can provide a relatively long operation time. Because there is no air pollution, it is especially suitable for storage with higher requirements for air quality ratio! Now there are also lithium batteries that can be applied to forklifts. Please consult our technicians for details!

Battery for Prowl Car Parameter (Specification)

Ann number	voltage
100	2V
150	2V
200	2V
300	2V
380	2V
400	2V
420	2V
480	2V

The EVK Production of Electric Forklift Battery Pack Feature And Application

The production equipment and technology of EVK Electric Forklift Battery Pack are the most advanced in the world at present, which ensures the high quality of products. The raw materials used are all first-class brand-new materials. The end plate material is 99 pure copper, which ensures the output of large current. Our products are widely used in patrol cars, sightseeing bus, car washers and other equipment!

The EVK Production of Electric Forklift Battery Pack Details

The EVK Production of Electric Forklift Battery Pack. It is produced in strict accordance with international standards, and the grid adopts the latest integrated stamping technology, which ensures that the grid will not be broken even with high current. The battery head adopts 99% pure copper, which will not melt due to high current, and also ensures the output of high current. Pure white shell is very beautiful, and an ABS flame-retardant shell. All the battery packs will be packed in an explosion-proof box. 100% safety of products is guaranteed.
