

Lexus LC 500H Hybrid Battery

The new Lexus LS 600H is equipped with a brand-new Lexus LC 500H hybrid battery, which has a high market rate in the Middle East and America. The life of Lexus LC 500H hybrid battery is about eight years. EVK company is engaged in the production of Toyota hybrid battery, which can produce 500,000 modules every year. We provide brand-new batteries for Toyota in China. We provide a 3-year warranty to provide Toyota owners with high-quality hybrid batteries!

Product Description

The EVK Production of Lexus LC500H hybrid battery produced by our company is mainly used in the field of hybrid vehicles. It is a square Ni-MH battery module with a Nominal voltage 14.4V, working voltage 12.0 ~ 18.0 V, nominal capacity 6500mAh, minimum capacity 6200mAh, rated energy 45Wh, weight 2850±50G, power density > 14 W/kg, energy density > 40 Wh/kg, maximum constant current discharge (short time) 210A, maximum continuous discharge rate. The assembly is suitable for Toyota hybrid (Ni-MH battery) series models. This product is 100% consistent with the original Toyota Ni-MH battery. EVK provide installation videos or manuals to make your installation worry-free! The installation case of 500,000 car owners, the choice of many car owners, I believe we are your wise choice!

Lexus LC 500H hybrid battery Parameter (Specification)

Ann number	voltage	Total volt number	Module quantity
6Ah	28.8V	288V	10 (cylinder)
6.5Ah	14.4V	288V	20 (cuboid)

The EVK Production of Lexus LC 500H hybrid battery Feature And Application

EVK hybrid battery/Ni-MH battery Mainly applicable to all Lexus LC 500H hybrid battery
