

Toyota Alphard Hybrid Battery

Toyota Alphard is an advanced hybrid model, and Toyota Alphard Hybrid Battery is a very environmentally friendly battery. Our company has been committed to the research in the field of new energy, and has developed a battery that is 100% matched with Toyota Alphard Hybrid Battery, which can be installed in a nondestructive way, and the installation video is provided for worry-free installation. High cost performance and long warranty. We look forward to becoming your long-term supplier in China!

Product Description

The EVK Production of Toyota Alphard Hybrid Battery produced by our company is mainly used in the field of hybrid vehicles. It is a Weight $2850\pm 50G$, power density $> 14W/KG$, energy density $> 40Wh/kg$, maximum constant current discharge (short time) 270A, maximum continuous discharge rate (continuous) 210A, maximum constant current charging rate 120A, and an ABS flame-retardant shell! The assembly is suitable for Toyota hybrid (Ni-MH battery) series models. This product is 99% consistent with the original Toyota Ni-MH battery. EVK provide installation videos or manuals to make your installation worry-free! The installation case of 500,000 car owners, the choice of many car owners, I believe we are your wise choice!

Toyota Alphard Hybrid Battery Parameter (Specification)

Ann number	voltage	Total volt number	Module quantity
6.5Ah	9.6V+14.4V	244.8V	12+9 (cuboid)

The EVK Production of Toyota Alphard Hybrid Battery Feature And Application

EVK hybrid battery/Ni-MH battery Mainly applicable to all Toyota Alphard Hybrid

Toyota Voxy

Toyota Alphard

Toyota Estima

Toyota Previa

Toyota Vellfire

The EVK Production of Toyota Alphard Hybrid Battery Details

The EVK Production of Toyota Alphard Hybrid Battery . It is a square Ni-MH battery module with a nominal voltage of 9.6V+14.4V, a capacity of 6.5Ah, and an ABS flame-retardant shell, Or cylindrical nickel-hydrogen module, with a capacity of 6Ah and a metal explosion-proof shell.
