

Toyota Previa Hybrid Battery

In China, there are about 200,000 vehicles equipped with Toyota Previa Hybrid Battery, and their service life is about eight years or 200,000 km. So far, our EVK company has sold about 100,000 sets of Toyota's full range of hybrid batteries! Received the praise of many car owners, we will continue to work hard to push our products to the world and serve the vast number of Toyota car owners all over the world! I look forward to your letter and our cooperation!

Product Description

The EVK Production of Toyota Previa Hybrid Battery produced by our company is mainly used in the field of hybrid vehicles. It is a square Ni-MH battery module with a Nominal voltage V 14.4V, working voltage 12.0 ~ 18.0 V, nominal capacity 6500mAh, minimum capacity 6200mAh, rated energy 45Wh, weight 2850±50G, power density > 14 W/kg, energy density > 40 Wh/kg, maximum constant current discharge (short time) 210A, maximum continuous discharge rate. This product is 99% consistent with the original Toyota Ni-MH battery. EVK provide installation videos or manuals to make your installation worry-free! The installation case of 500,000 car owners, the choice of many car owners, I believe we are your wise choice!

Toyota Previa Hybrid Battery Parameter (Specification)

Ann number	voltage	Total volt number	Module quantity
6.5Ah	9.6V+14.4V	244.8V	12+9 (cuboid)

The EVK Production of Toyota Previa Hybrid Battery Feature And Application

EVK hybrid battery/Ni-MH battery Mainly applicable to all Toyota Prius Hybrid

Toyota Voxy

Toyota Alphard

Toyota Estima

Toyota Previa

Toyota Vellfire

The EVK Production of Toyota Previa Hybrid Battery Details

The EVK Production of Toyota Previa Hybrid Battery . It is a square Ni-MH battery module with a nominal voltage of 9.6V+14.4V, a capacity of 6.5Ah, and an ABS flame-retardant shell, Or cylindrical nickel-hydrogen module, with a capacity of 6Ah and a metal explosion-proof shell.
