

### **Toyota RAV4 Hybrid Battery**

Toyota RAV4 hybrid battery sold by our company is a nickel-hydrogen battery with a voltage of 7.2V and a capacity of 5.5Ah/6Ah/6.5Ah Every product goes through EVK company's strict testing before it leaves the factory to ensure the customer's product experience. The company is equipped with the world's most advanced fully automatic nickel-hydrogen battery production line, which can produce 50 million Ah batteries every year. Our parent company is a partner of Toyota in China, providing brand-new batteries for Toyota!

#### **Product Description**

The EVK Production of Toyota RAV4 hybrid battery produced by our company is mainly used in the field of hybrid vehicles. It is Nominal voltage 7.2V, working voltage 6.0 ~ 9.0 V, nominal capacity 6500mAh, minimum capacity 6200mAh, rated energy 45Wh, weight 1450±50g. The modules form a battery assembly, which is 244.8V. This product is 100% consistent with the original Toyota Ni-MH battery. EVKprovide installation videos or manuals to make your installation worry-free! The installation case of 500,000 car owners, the choice of many car owners, I believe we are your wise choice!

#### **Toyota RAV4 hybrid battery Parameter (Specification)**

			,
Ann number	voltage	Total volt number	Module quantity
5.5Ah	7.2V	244.8V	34 (cuboid)
6Ah	7.2V	244.8V	17 (cylinder)
6.5Ah	7.2V	244.8V	34 (cuboid)

# The EVK Production of Toyota RAV4 hybrid battery Feature And Application

EVK hybrid battery/Ni-MH battery Mainly applicable to all Toyota RAV4 hybrid battery

## The EVK Production of Toyota RAV4 hybrid battery Details

The EVK Production of Toyota RAV4 hybrid battery. It is a square Ni-MH battery module with a nominal voltage of 7.2V, a capacity of 5.5Ah/6.5Ah, and an ABS flame-retardant shell. Or cylindrical nickel-hydrogen module, with a capacity of 6Ah and a metal explosion-proof shell.
