

### Toyota Voxy Hybrid Battery

EVK company has been focusing on the field of new energy power batteries, The company can produce Toyota VOXY Hybrid Battery and hybrid batteries of other Toyota models. and built an automatic production line of nickel-hydrogen power batteries with an annual output of 50 million ampere-hours, which was successfully put into production at the end of 2012. It is mainly used in HEV/NI-MH Battery, AGV industrial robot, communication base station power supply, energy storage power supply and other fields. Among them, HEV products are 100% consistent with the batteries of Toyota VOXY Hybrid , and can be installed at will! Stable high-quality products at the right price. We offer a 3-year or 100,000-kilometer warranty, Look forward to becoming your long-term partner in China!

### Product Description

The EVK Production of Toyota VOXY Hybrid Battery produced by our company is mainly used in the field of hybrid vehicles. It is a square Ni-MH battery module with Nominal voltage 14.4V, working voltage 12.0 ~ 18.0 V, nominal capacity 6500mAh, minimum capacity 6200mAh, rated energy 45Wh, and an ABS flame-retardant shell! The modules form a battery assembly, which is 244.8V. The assembly is suitable for Toyota hybrid (Ni-MH battery) series models. This product is 99% consistent with the original Toyota Ni-MH battery. EVK provide installation videos or manuals to make your installation worry-free!

### Toyota VOXY Hybrid Battery Parameter (Specification)

Ann number	voltage	Total volt number	Module quantity
6.5Ah	9.6V+14.4V	244.8V	12+9 (cuboid)

### The EVK Production of Toyota VOXY Hybrid Battery Feature And Application

EVK hybrid battery/Ni-MH battery Mainly applicable to all Toyota VOXY Hybrid

Toyota Voxy

Toyota Alphard

Toyota Estima

Toyota Previa

Toyota Vellfire

### **The EVK Production of Toyota VOXY Hybrid Battery Details**

The EVK Production of Toyota VOXY Hybrid Battery. It is a square Ni-MH battery module with a nominal voltage of 9.6V+14.4V, a capacity of 6.5Ah, and an ABS flame-retardant shell, Or cylindrical nickel-hydrogen module, with a capacity of 6Ah and a metal explosion-proof shell.
