### **Knurled Copper Sleeve**

The following is the introduction of high quality Eight® Knurled Copper Sleeve, hoping to help you better understand Knurled Copper Sleeve. Welcome new and old customers to continue to cooperate with us to create a better future!

The following is the introduction of high quality Eight® Knurled Copper Sleeve, hoping to help you better understand Knurled Copper Sleeve. Welcome new and old customers to continue to cooperate with us to create a better future! Our company has several production lines and quality control systems, which can guarantee the quality of our products to the greatest extent. We welcome new and old customers to continue to cooperate with us for a bright future and provide you with the best after-sales service and timely delivery.

### **Introduction to Knurled Copper Sleeve:**

This product is a customized product. We are mainly engaged in hardware product parts processing and CNC processing. Customers in need are welcome to send email consultations to customize hardware products suitable for you.

**Dongguan Eight Metal Manufacturing Co., LTD**

**Address:**No. 8, Buyan Industrial Yiheng Road, Fenggang Town, Dongguan City, Guangdong Province

**Tel:**+86-18675158482

**E-mail:**[yangfuchangchang@gmail.com](mailto:yangfuchangchang@gmail.com)

### Knurled Copper Sleeve product information:

Product Category:	Hollow copper sleeve
	Brass Sleeves for Flareless Fittings
	Solenoid valve brass sleeve
	Non-standard copper sleeve
	Threaded copper sleeve
	Forehead gun copper sleeve
	Flanged copper sleeve
	Machine copper sleeve
	Knurled copper sleeve
The maximum diameter:	500MM
The maximum length:	1000MM
tolerance:	0.02MM
Precision:	±0.001MM

**Dongguan Eight Metal Manufacturing Co., LTD**

**Address:**No. 8, Buyan Industrial Yiheng Road, Fenggang Town, Dongguan City, Guangdong Province

**E-mail:**yangfuchangchang@gmail.com

Surface roughness:	0.01
product material:	copper
Machining Type:	turning

**Product advantages of Knurled Copper Sleeve:**

1. High hardness, excellent wear resistance, not easy to cause seizure, good casting performance and cutting performance, and good corrosion resistance in the atmosphere and fresh water.
2. It can be used for wear-resistant parts that work under high load (below 20Mpa) and high sliding speed (8m/s), such as connecting rods, bushings, bearing bushes, gears, worm gears, etc.
3. Corrosion resistance, especially for dilute sulfuric acid, hydrochloric acid and fatty acid.
4. Structural materials, corrosion-resistant and acid-resistant accessories, as well as crusher bushings and bearing bushes.
5. Good lubricity, wear resistance and corrosion resistance, suitable for bimetal casting materials.
6. Vehicle bearings, internal combustion engine bimetallic shoes with a load peak of 100Mpa, piston pin sleeves, friction plates, etc.

**Support customization:**

Size customization	Printing LOGO	Material selection
Craft production	Free design	Small batch customization
Surface treatment: Screen printing, electroplating, polishing, oxidation, sandblasting, wire drawing, laser

engraving, baking paint

Application areas:

Auto parts, smart home appliances, security intelligence, aviation and military industry, digital office, medical equipment, electronic instruments, drones, etc.

## FAQ

### Q:1. Are you a trader or a manufacturer?

A:We are a professional manufacturer of customized hardware parts processing and CNC processing, with our own production factory and 15 years of production experience.

### Q:2. How do we guarantee the quality?

A:1. Always pre-production samples before mass production;  
2. Professional quality inspectors conduct product testing and quality assurance;  
3. Our products win by quality and have a good reputation in the industry. We have served Dell, Logitech, ASUS, CAT and other first-line brands; we hope to establish a long-term cooperative relationship with you.

### Q:3. What can you buy from us?

A:We are mainly engaged in CNC processing customization, mainly providing sports equipment, pneumatic components, ATM, commercial display, medical parts processing, communication parts processing, optoelectronic parts processing, auto parts processing,

**EIGHT METAL  
MANUFACTURING**

[www.eightmetal.com](http://www.eightmetal.com)

CNC precision processing, CNC processing, CNC processing of complex parts, non- CNC machining of standard parts, customized CNC machining, etc.

**Q:4. Why buy from us instead of other suppliers?**

A:We have 15 years OEM/ODM experience! We have our own design team and production team, equipped with complete production equipment and auxiliary processing equipment, so we can customize hardware parts with small MOQ, and carry out quality control in strict accordance with the ISO9001:2008 quality system to provide customers with stable and reliable products with service.

**Q:5. How long will it take for delivery?**

A:5-7 days for sampling, 35-45 days for delivery after sample confirmation.

**Q:6. How can I get samples to check your quality?**

A:After the price is confirmed, you can request samples to check our quality. We can provide free blank samples to check the design and product quality, but you need to bear the shipping cost.
