

**Product: SQ-APG0814B46****INCI Name: Coco-glucoside**

### Description

SQ-APG0814B46 is a nonionic surfactant, made from natural raw materials. SQ-APG0814B46 is very mild and readily biodegradable. The product is generally used in shampoo, bubble bath, cleaning lotion and personal care, because of its excellent mildness, foaming performance and ability to reduce irritation.

### Specification

| Item                 | Specification                                     |
|----------------------|---|
| Appearance           | Pale yellow slightly turbid liquid or white paste |
| Solid content        | 50% Min   |
| Viscosity(20°C)      | 1000mPa.sMin                                      |
| pH (25°C,20% aq sol) | 11.5-12.5   |
| Free fatty alcohol   | 1.0% Max  |
| Sulfated ash         | 3.0% Max  |

### Features

100% vegetable origin product  
Environmentally friendly and readily biodegradable product  
Mild nonionic surfactant, shows good synergy effect of mildness, foaming and cleansing performance when combined with other surfactants.

### Applications

Toiletries products such as shampoo, bubble bath, cleaning lotion, shower gel, hand and face cleansers, etc.

### Package

200kg/drum

### Storage & Handling
