

IBUKI E85 Magnet horn is driven by DC12 and 24V. The body is aluminum waterproof solid body for use under marine severe conditions. Much durability and stable performance is same as IBUKI other products, E85 Magnet horn is suitable for the vessel under 14m length. The oscillator unit is built in the horn, power on / off is via push button switch.

Microphone unit can be added as option.

Type	Protection	Fundamental Frequency (Hz)	Sound Level 1/3rd Octave (dB/1m)	Voltage	Length (mm)	Horn Diameter (mm)	Weight (kg)
E85	IP56	630	Over 110dB (A)	DC12V 1.4A	261	150	2
				DC24V 0.7A
