

E90

IBUKI E90 Magnet Horn employs an electrical power source. An extremely rugged construction ensures the reliable operation. The oscillator unit is built-in, no need to install another oscillator unit in the wheelhouse. Power can be switched on / off via compact switch. Auto fog signal controller and heater are available as option.

The working voltage is DC24V as standard, AC100V and 220V are available as option with a converter.

Type	Protection	Fundamental Frequency (Hz)	Sound Level 1/3rd Octave (dB/1m)	Voltage	Length (mm)	Horn Diameter (mm)	Weight (kg)
E90	IP56	635	Over 120dB	DC24V 3A	443	268	6.4
