

F30

IIBUKI is the first company developed a motor siren in Japan. F30 and F40 series compact motor siren are the current model after the continuous improvement. The each size is almost same and the different frequency is available.

Variant models are available with lamp, rotating light and strobo light.

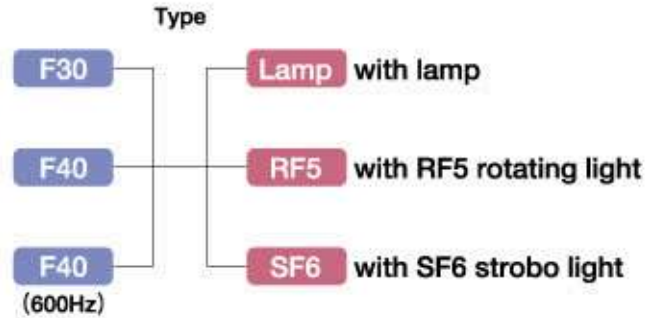

■ IBUKI Compact Motor Siren Combination (Example)

F30 with LAMP

F30 with RF5

Type	Fundamental Frequency (Hz)	Sound Level (dB/1m)	Voltage	Rating (min)	Height (mm)	Stator diameter (mm)	Weight (kg)
F30	1250	108dB	AC100V 0.55A AC220V 0.3A DC24V 2.7A	30	139	92	1.8
F40	930	109dB	AC100V 0.65A AC220V 0.35A DC24V 3.2A	30	139	109	2
F40 (600Hz)	600	109dB	AC100V 0.65A AC220V 0.35A DC24V 3.2A	30	139	109	2
