FORWARD

Hande is a shining new star in the field of vinyl woven flooring. Our original intention is to continuously explore the most ideal solutions among fashion, practicality and high quality. Our carpet not only have powerful functions such as waterproof, stain-resistant and fireproof, but also have excellent antibacterial and anti-slip properties, providing more health care for children and the elderly. In addition, the extremely artistic and design-oriented woven texture, gives the ground space an appearance that is both healthy, fresh, comfortable and exudes unique charm.

Welcome to our world, an innovative and sincere brand.

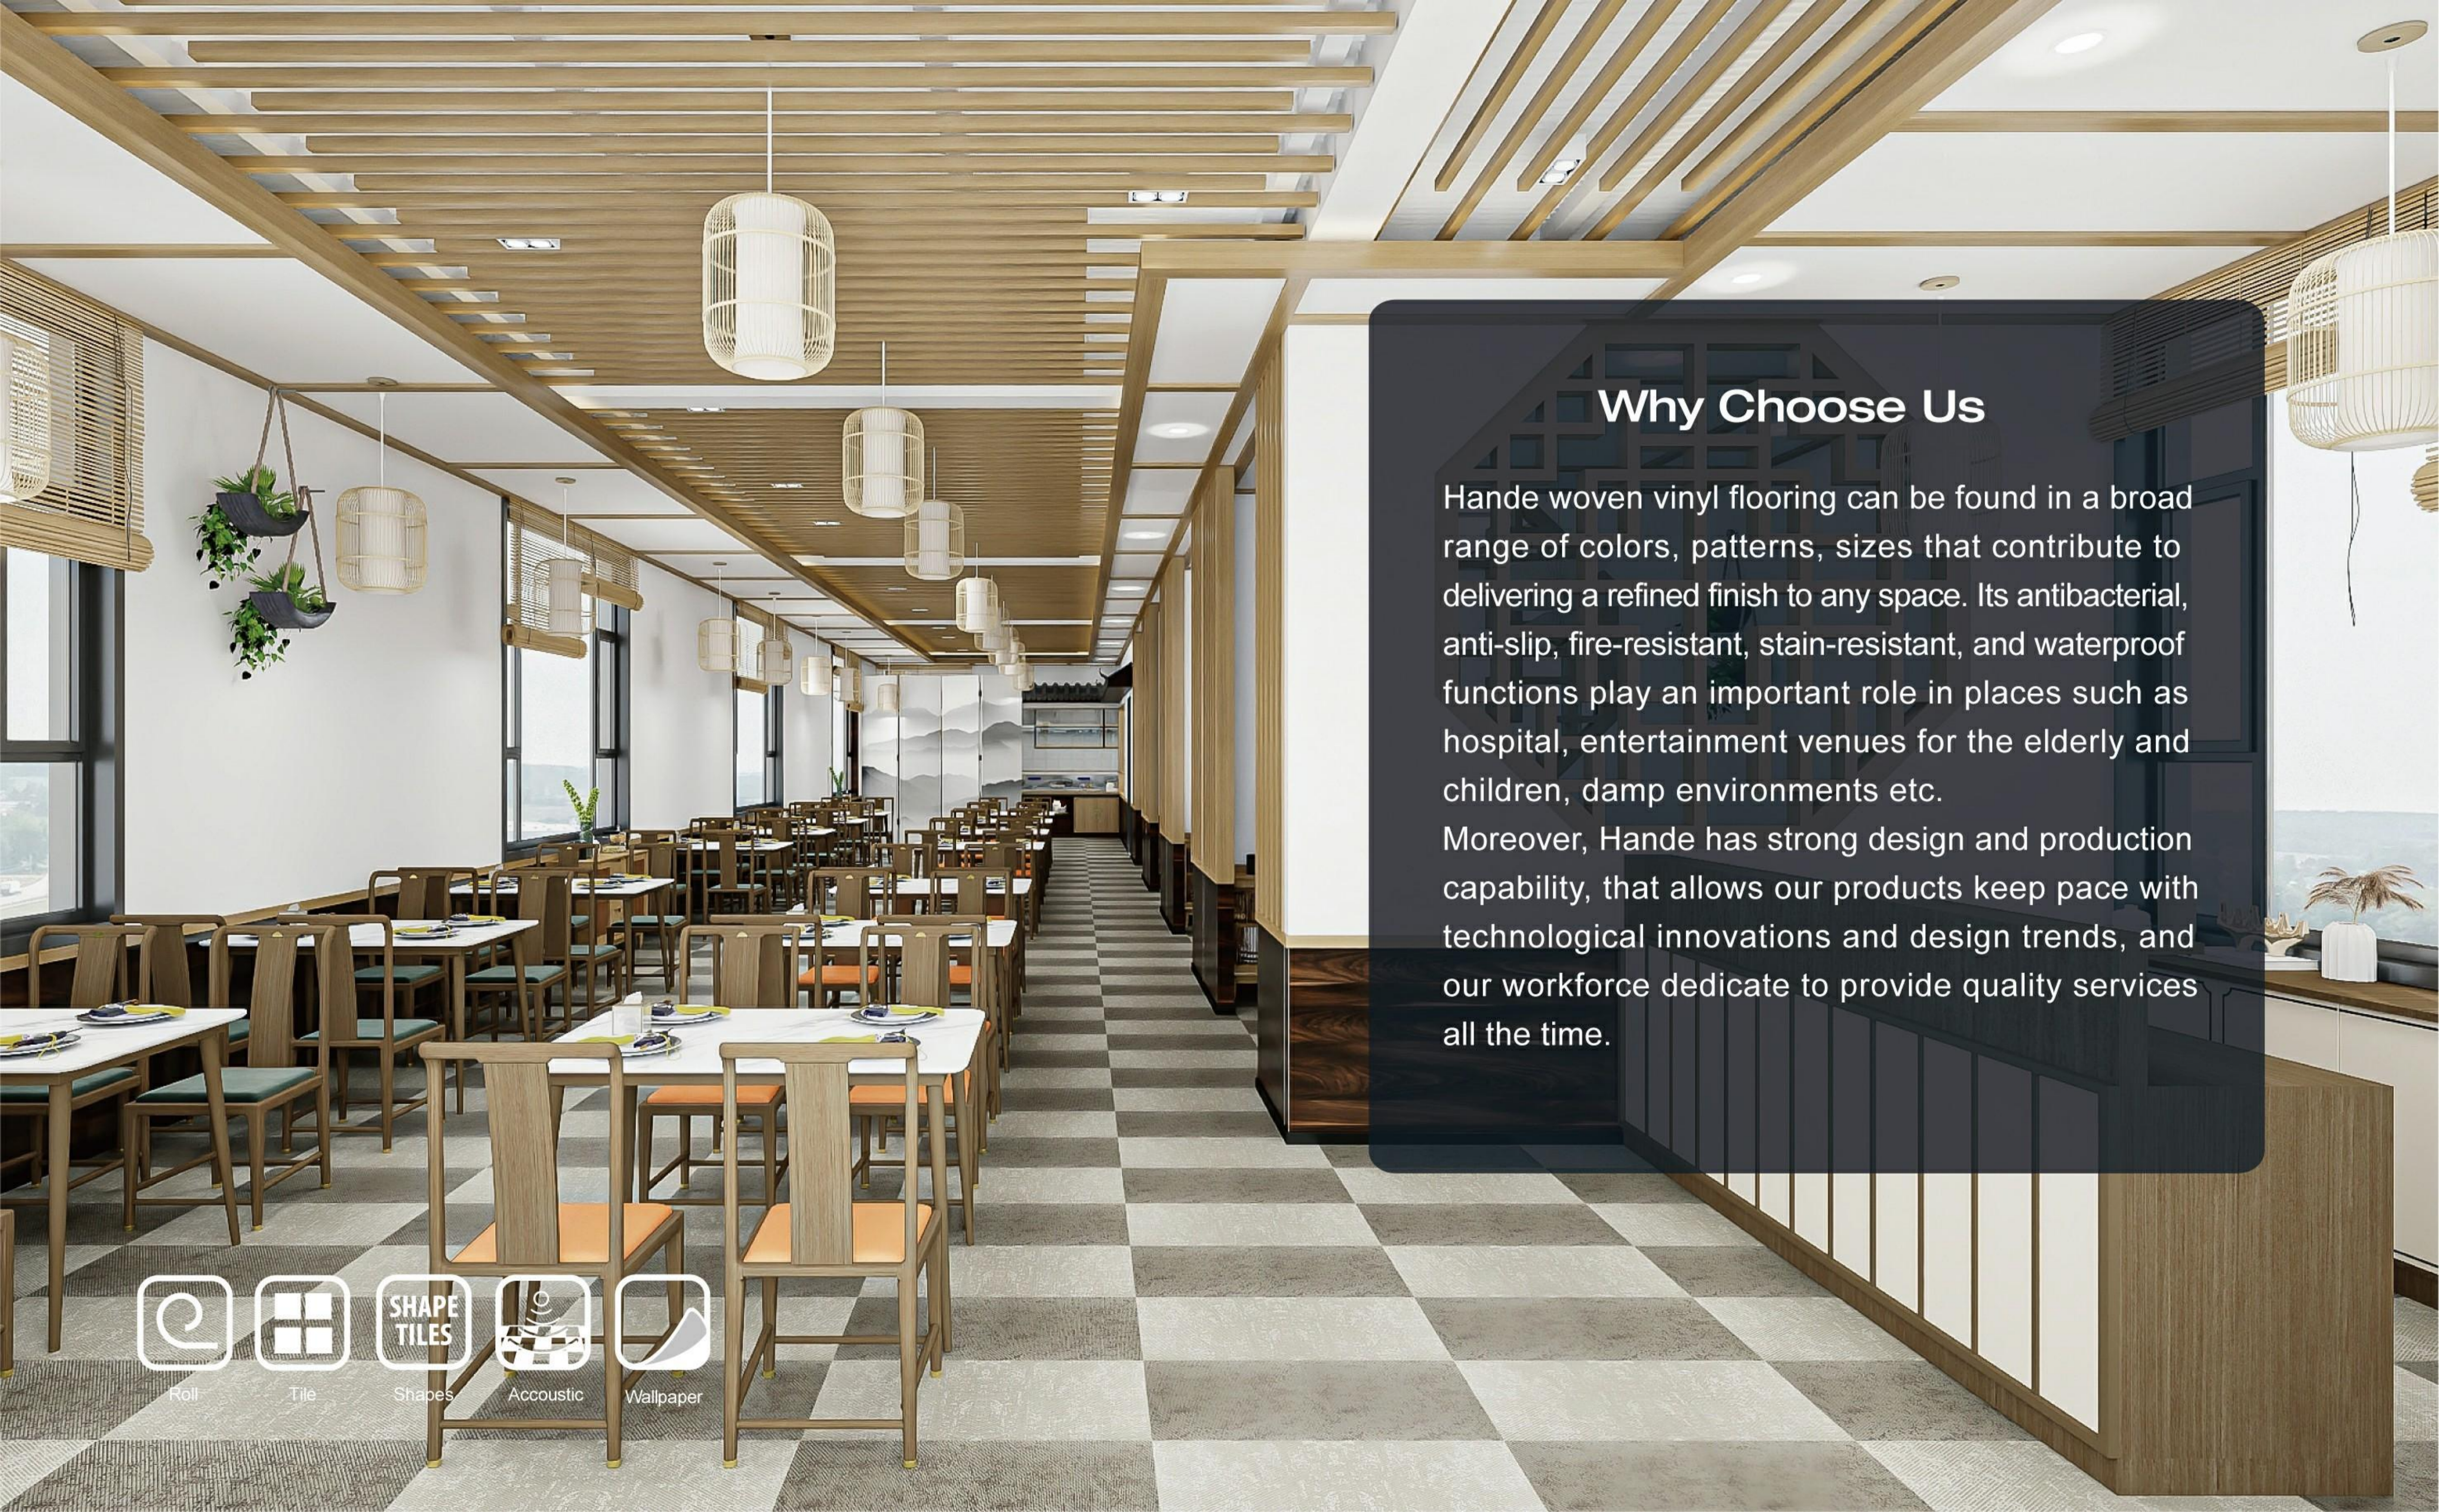

Hande—20 years woven fabrics production experience

Hande factory has 20 years of production experience in woven fabrics, which was acquired from the world's largest sunshade window covering enterprise Hunter Group. We specialize in manufacturing woven fabrics for sunshading, floor and outdoor furniture.

Why Choose Us

Hande woven vinyl flooring can be found in a broad range of colors, patterns, sizes that contribute to delivering a refined finish to any space. Its antibacterial, anti-slip, fire-resistant, stain-resistant, and waterproof functions play an important role in places such as hospital, entertainment venues for the elderly and children, damp environments etc.

Moreover, Hande has strong design and production capability, that allows our products keep pace with technological innovations and design trends, and our workforce dedicate to provide quality services all the time.

PRODUCT PROPERTIES

- » **Quiet and Comfortable:** Determined by our quality and make, vinyl flooring is softness and quiet.
- » **Durable appearance:** Our woven texture are durable and the patterns will not easily become flat during use.
- » **Easy to clean:** Our woven texture are durable and the patterns will not easily become flat during use.
- » **Antibacterial Protection:** The surface yarn is antibacterial treated, which can prevent the growth of mold, bacteria, etc., and maintain a healthy and odorless state.
- » **Waterproof and Stain Resistant:** The impervious backing prevents liquid penetrating through the floor covering. It resists stains by not absorbing liquids and thus making spills easy to clean.
- » **Convenient Installation:** The installation and construction are convenient and fast. If the ground condition is good, without cement mortar, a special environmentally friendly adhesive can be selected for bonding, and it can be used after 24 hours.
